

DISCLAIMER

All estimates on this site are based on average reimbursement rates within the general geographic region selected and are not specific to any city, county or provider. The actual amount reimbursed for this procedure will depend on the actual services provided on the date of service. To determine your specific benefits, please review your plan document or contact the Customer Service number on the back of your member card.

The reimbursement amounts displayed are estimates only and you should not consider them to be a guarantee of payment. Some procedures may include services that can vary significantly from patient to patient, such as anesthesia time or operating room time, so the actual amount reimbursed may be significantly different than the amount displayed on this site. In-patient estimates are based on procedures without complications and may not include all fees associated with the procedure, including professional fees. Complications during any procedure can greatly increase costs. Out-patient estimates include the facility, physician and other fees as indicated but may not include all services actually billed on the date of service. In-Network and Out-Of-Network reimbursement amounts are averaged for all estimates.
